

GREEN WITHOUT THE GROWTH

- MicroTek™ is a complete foliar iron nutritional with a balanced analysis of the essential micronutrients
- Contains Fulvic acid to improve nutrient availability to the crop, enhance photosynthesis, and magnify root growth
- Boasts an 8:5 Iron to Magnesium ratio which is one of the best in this product category
- Magnesium increases the Iron utilization and availability for quick green up
- Highly compatible with a wide range of other tank mix products
- Ideal for seed establishment and season long turfgrass application

Magnesium (Mg)	5.000%
Boron (B)	0.025%
Cobalt (Co)	0.005%
Copper (Cu)	0.050%
Iron (Fe)	8.000%
Manganese (Mn)	2.500%
Molybdenum (Mo)	0.005%
Zinc (Zn)	0.150%

Derived from: Sodium Borate, Cobalt Sulfate, Copper Sulfate, Magnesium Sulfate, Iron Sulfate, Manganese Sulfate, Sodium Molybdate, and Zinc Sulfate. Also contains Citric Acid as a chelating agent.

*Also contains the non-plant food ingredient: 2.00% Fulvic Acid derived from Humate.

Application Programs

<p>Fairway and Tees - 1 - 2 lb per Acre Monthly</p> <p>Greens - 2 ½ - 5 lb per Acre Monthly</p> <p>Sports Turf - 2 - 4 lb per Acre Monthly</p>

Mixing Instructions

MicroTek™ can be mixed with most fungicides, insecticides and liquid fertilizers. Add water to spray tank to ½ full followed by MicroTek™, control products then fertilizers in that order. Adjitate while adding products. Always do a jar compatibility test with any new combination. In order to ensure the most effective turfgrass response, SynaTek recommends monitoring your water pH during all stages of the tank mix process.

Net Weight: 5 lb
